

Chief, Collection Branch, Air Intelligence
Division, Directorate of Intelligence
ATT: Lt. Colonel William E. Ross
Chief, FDD, CIA

9 August 1950

Anders Collection

1. In conversations which [] of this office has had with you and [] it has been proposed, as the generally most practical arrangement, that the exploitation of subject collection for the interests of all IAC Agencies be conducted by the Air Force, and that the costs of the project be borne by a transfer of funds to Air Force from CIA, except for services of one GS-11 and two GS-9 linguists, cost of which is to be borne by the Air Force.

STAT

2. In view of this it now appears more practical that Air Force prepare the plans for detailed arrangements for the project and the costs as to personnel, travel, space and furniture, equipment and supplies, communications, microfilming and developing, reproduction of material to be disseminated, etc.

3. Accordingly, it is requested that you have such an estimate prepared and returned to this office. It will then be submitted, with a description and justification of the project, to the appropriate CIA committee for approval and arrangements for transfer of funds.

4. [] has been advised that this request is to be sent to you.

STAT

5. Attached are notes prepared by Mr. [] which may assist in your plans and estimates. You may contact him for any other help he can give or can arrange for from CIA, including suggestions from CIA files for recruits, if such are desired.
